

**X LAUNCHER**

# Introduction

The cryptocurrency market has grown by more than 5,000% since December 2020 – a huge leap in the adoption of blockchain applications, bringing hundreds of millions of people into this new financial market. They generate trading volumes of tens of billions of dollars every 24 hours.

# Rug Pulls

Hundreds of new projects are launched every day, but these come with high risks. If some time ago the terms pump and dump or rug pull were rarely heard, now this phenomenon is encountered daily.

XLauncher aims to eliminate the risks you face in the case of new projects.

RUG PULL

# Introducing XLauncher

This Launchpad created by a team of passionate technology enthusiasts tries to help crypto startups with technological and financial support, in order to start the projects in the most efficient way possible.

XLauncher brings projects to investors with a promise of the quality and credibility of the ideals behind the projects.

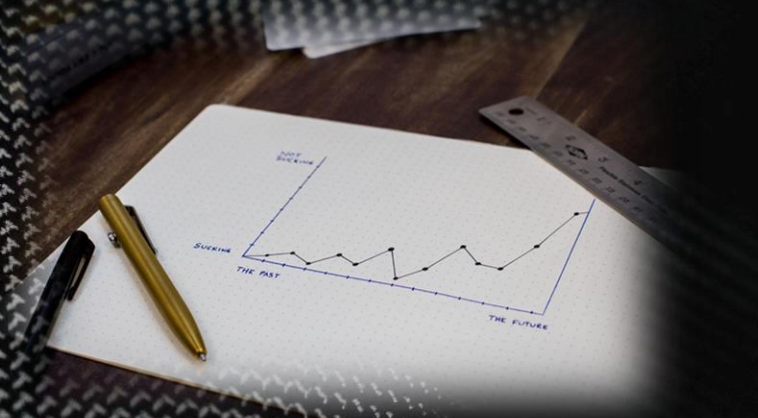

BLOCKCHAIN

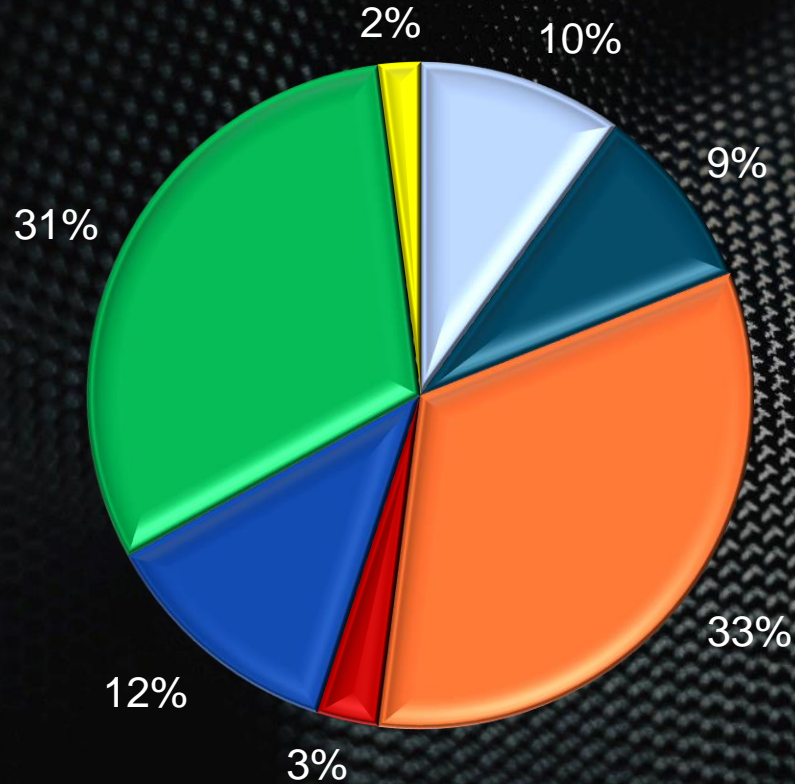

# Main Objective

**We aim to launch around 100 projects on our launch pad in 2022-2023 in order to reach a number of 3 – 5 projects per month during the next 3 years - projects that bring value to the community.**

# ROADMAP

# **XLauncher (XLH) Token utility**

**XLH is the native ecosystem token and a key factor in the project incubation process.**

**Holders of a fixed minimum number of tokens are allowed to have early access to future projects in the XLauncher ecosystem, supporting the financing and growth of new projects.**

# XLauncher NFT Utility

The XLauncher project will also include a limited set of NFTs that will help early participation in ecosystem projects.

NFTs will be structured as follows

**Bronze NFT** – 500 unique pieces

**Silver NFT** – 400 unique pieces

**Gold NFT** – 300 unique pieces

**Platinum NFT** – 200 unique pieces
